

ALIS 9W/E26 & 11W/E26 Bulbs

These bulbs can be retrofit on existing incandescent fixtures, or newly installed.

ALIS 9W/E26 Bulbs (AgriLamp)

Safety standard: UL approved

Provides dimmable, wide-angle, evenly distributed light

Equivalent to 50W/60W incandescent bulb

Power Consumption 9W

Beam angle 120 degrees

Luminous Flux 597 lumens

Provides the correct wavelength and intensity for:

- Aviary systems
- Broiler houses
- Layer cage systems
- Enriched systems
- Rearing floor systems
- Alternative egg production systems
- Breeder and rearing pig units

ALIS 11W/E26 Bulbs (AgriLamp)

Provides more dispersed, dimmable light which limits the number of bulbs required

Equivalent to 100W incandescent bulb

Power Consumption 11W

Beam angle 160 degrees

Luminous Flux 1028 lumens

All our LED bulbs provide:

- 60,000 hours or more
- Instant 'on' to a 100% brightness
- The light spectrum is customized to reduce stress of poultry and swine
- Energy savings of up to 90% over traditional lighting
- Polycarbonate, 'virtually unbreakable' lens
- No mercury, glass or other inorganics

Technical Information: For both the 9W and 11W bulbs

Input Voltage 110V 60Hz AC

Power Factor >0.95

Ambient Temperature 1028 lumens -4 F to 131 F (-20 C to 55 C)

Humidity Range 0 to 95% humidity (non-condensing)
